Entrance Zone

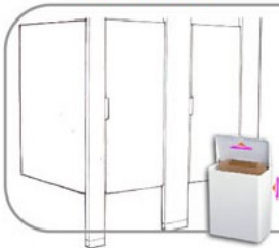

Feminine hygiene container

Baby changing area

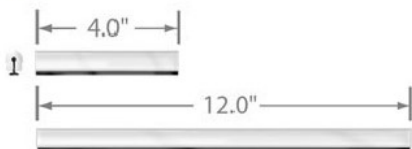

Waste container

Hand drying area

Door area

Mount in key odor generating zones that traditional metered aerosols, wick systems, and gels could not... such as feminine hygiene and waste containers. Place in inconspicuous locations on easy to apply self-adhesive brackets, the Fragrance Stix pop on and off without the use of ladders or tools.

1 Select locations to place Fragrance Stix (4.0" or 12.0"), based on facility profile and designated fragrance zones/areas.

2 Remove adhesive backing from bracket and firmly place. Push fragrance Stix onto bracket and center.

3 After 30 days, peel off spent Fragrance Stix from bracket and replace with new.
